Also, here are some additional services may be implemented as add-ons.

- Making updates and new development.
- Updating company directories and staff profiles.
- Adding recent company news to website.
- Creating new web pages with new products or services.
- Updating product pricing and sales.
- Adding promotions to the website.
- Updating hours of operation, schedules, and contact information.
- Changing an address or contact information.
- Adding new images and content to your website.

We will first run an advance level of audit, which cost \$9.99 per website. According to that report we will suggest all the cases and scopes of improving. If you go for initial level optimization then the audit charges will be adjusted from there.

All add-on development and optimization to be charged US\$25/Hour.

Note: Unused monthly option will not be carried forward. All the service charges are excluding PayPal transaction fees.
